Business Strategist and Management Expert

CSA CELEBRITY SPEAKERS

Ian Thomas is a business graduate who's studied lions at close quarters during 20 years as a game ranger in Africa. The study of lions in the wild has involved Ian in far more than the gathering of biological data. He has a unique understanding of how lions raise such potent individuals and then combine them into incredibly powerful teams or prides.

"The strength of the pride is the lion, and the strength of the lion is the pride"

In detail

Ian's background has given him a rare insight into business and nature and how the two can complement and benefit from each other. He believes that there are many lessons that people, and in particular businesspeople, can learn from nature. He is a frequent guest on radio and television talk shows and has featured in many local and international management magazines. He is also one of South Africa's foremost wildlife photographers.
